

Adding the facilitator (John Garrett) as a friend in the YouVersion Bible App

Here are instructions on how to add John as a friend in the app.

- Launch the Bible app.
- In the upper-right corner, you will either see a circle with your first initial, or your picture if you have set your profile picture (in the shape of a circle). It will look something like one of the following (my picture is the Overcomers logo)...

- Click the letter or picture.
- Click “Friends”. If you then see an option at the top of the screen that says “Add friends”, click that also. Your screen should look something like one of the following...

- In either case, click the magnifying glass icon which will let you search for someone.
- In the search field, please put the following...
john.garrett@brockportfm.org
- Then on your keyboard there should be a Search or Enter button. Go ahead and click it.
- You should then see the following...

John Garrett

ADD

- Click Add. I will then receive your request and should add you as a Friend within a few hours once I see it. Please reach out with any questions!
